

CHABOT-LAS POSITAS COMMUNITY COLLEGE DISTRICT

August 17, 2010

Agenda Item: 6.9

Subject: Adoption of Resolution No. 03-1011—Authorization to Use the Construction Manager at Risk (CM at Risk) Project Delivery Method in Accordance with Government Code Section 4526 for Building 300, Chabot College

Background: Following the successful renovation of Building 500, Chabot College is proceeding with the renovation of classroom Building 300. Buildings 300 and 500 were designed and permitted by DSA as one project. The construction of the two buildings was sequenced to accommodate classroom scheduling. This resolution will allow the second half of the project to be completed.

Government Code Section 4526 provides for an alternative project delivery system called Construction Manager at Risk (CM at Risk). In this system, a Construction Manager is chosen based upon qualifications, experience and an overhead and fee price proposal. A contract is created with the successful CM to solicit competitive bidding for each of the individual sub-trades on the project. These sub-contractor bids are then gathered and opened with college representatives to determine the final construction team and final price.

Some of the advantages of utilizing this delivery method in lieu of the traditional design bid build method are:

1. The project schedule and cost can be improved by inviting contractors to compete for the project who are already mobilized on site, thereby reducing the construction complexity created by the current site conditions.
2. The subcontracted construction cost continues to be competitive by requiring the CM at Risk to competitively price the subcontracted work to a minimum of three subcontractors for each trade.
3. The CM at Risk firms provides competitively priced overhead and fee during the selection phase to ensure good value to the District.
4. Reduced coordinating, scheduling and change order issues, corresponding to overall risk and cost reduction for the project.
5. Once competitive pricing is finalized, the CM at Risk converts to a lump sum price.

CHABOT-LAS POSITAS COMMUNITY COLLEGE DISTRICT

RESOLUTION NO. 03-1011

AUTHORIZATION TO USE THE CONSTRUCTION MANAGER AT RISK (CM AT RISK) PROJECT DELIVERY METHOD FOR BUILDING 300 AT CHABOT COLLEGE IN ACCORDANCE WITH GOVERNMENT CODE SECTION 4526

WHEREAS, the Government Code section 4526 authorizes the use of the Construction Manager at Risk (CM at Risk) construction method on projects to realize the benefits of a CM at Risk contract project delivery system which include an improved completion schedule, competitive costing, reduction of construction complexity, and reduced exposure to risk for the community college district; and

WHEREAS, Chabot-Las Positas Community College District has decided it is in the best interest of Chabot College's students, faculty, staff and the facilities modernization program and Building 300 at Chabot College to utilize the CM at Risk method of project delivery; and

WHEREAS, the Governing Board of the Chabot-Las Positas Community College District finds the use of the CM at Risk delivery method an appropriate project delivery method which will provide benefits and features unavailable through traditional design-bid-build process for Building 300 at Chabot College;

NOW, THEREFORE, BE IT RESOLVED, that the Chabot-Las Positas Community College District Board of Trustees authorizes utilization of the CM at Risk Project delivery method, as provided for under Government Code section 4526, for Building 300 at Chabot College.

PASSED AND ADOPTED by a roll call vote on the 17th day of August 2010 by the Governing Board of Chabot-Las Positas Community College District of Alameda County, State of California.
